Management Notes

• TTM August 2026 repairs and maintenance includes approximately $85,000 of roof and HVAC work. Management considers this work non-recurring and capital in nature; it remains recorded in repairs and maintenance in these statements.

• CAM and expense reimbursements may differ from annualized lease-based recoveries because of vacancies, lease caps/exclusions, timing and collection activity.

• NOI is presented before debt service, depreciation and amortization, tenant improvements, leasing commissions and replacement reserves.
